

# AYOMIDE OKE

Front-end developer | Tech Enthusiast

Github: <https://github.com/mided3v/> | Email: [ayomideoke9@gmail.com](mailto:ayomideoke9@gmail.com)

Phone: +2348162087291

## **PROFESSIONAL SUMMARY**

Detail-oriented and motivated Front-End Developer with 2+ years of professional experience with strong proficiency in HTML, CSS, JavaScript, and expertise in ReactJS. Passionate about creating visually appealing and user-friendly interfaces. Strong problem-solving abilities and a keen eye for detail. Eager to solve complex challenges and collaborate effectively in a team to contribute my expertise in modern JavaScript frameworks like React.

## **SKILLS**

- Front-end development
- JavaScript
- HTML
- CSS
- ReactJS
- Version control (Git)
- Typescript
- Asynchronous programming
- RESTful API design
- HTTP methods
- Problem-solving
- Attention to detail
- Collaboration
- Critical thinking
- Remote teamwork
- Web development

## **EXPERIENCE**

### **Front-End Developer | May 2022 – Present**

Zuri Team Inc. | Remote

- Collaborated with cross-functional teams to understand and translate project requirements into seamless user interfaces.
- Participated in code reviews and maintained code quality and adherence to standards.
- Troubleshoot and debugged complex issues to maintain application performance.
- Integrated front-end code with back-end APIs and services, ensuring robustness and security.
- Developed web apps in a back-end environment using the Django framework.

### **IT MANAGER | April 2022 – Present**

Oban Structures Limited | Hybrid

- Analyzed the company's IT system and infrastructure and provided advice on technology best practices. Diagnosed IT system problems, inefficiencies, and weaknesses.
- Developed and implemented IT strategies aligned with the company's business objectives.
- Conduct training sessions to educate employees on IT best practices and new software/hardware tools.
- Created and managed user accounts, access permissions, and security settings.

## **WEB DESIGNER |** December 2021 — March 2022

Everything Shelter | Remote

- Conceptualized creative ideas together with the client to match the business goals and objectives
- Communicated design ideas using user flows, process flows, site maps, and wireframes.
- Designed sample pages including colors and font templates for the business brand
- Incorporated functionalities and features into the website
- Designed visual imagery for the website and ensured that it was in line with branding for the business

## **IT SUPPORT |** May 2018 – February 2020

TILT Group of Companies Limited | Lagos, Nigeria

- Provided technical support/assistance to employees with technical issues related to hardware, software, and network problems.
- Diagnosing and resolving IT-related issues promptly to minimize downtime and ensure smooth operations.
- Ensured the proper functioning of computer systems, printers, and other hardware devices.
- Assisted in installing and configuring new hardware and software upgrades for improved performance and security.
- Implemented regular data backup procedures and assisted with data recovery when necessary.

## **PROJECTS**

### **Screened (Django & JavaScript)**

- Collaborated with a skilled team of tech professionals to successfully develop a movie blog site.
- The project presented a notable challenge as frontend development had to be executed within a backend environment utilizing Django, a backend framework.
- I proactively embraced the new environment, acquiring the necessary skills to adapt my front-end expertise seamlessly. Additionally, I sought guidance from the backend talents in the team, fostering effective collaboration and knowledge exchange.
- This experience demonstrated my ability to adapt and thrive in diverse technical environments while leveraging teamwork to deliver exceptional results.

### **Portfolio Website (ReactJs)**

- Designed and developed a personal portfolio website using React to showcase projects, skills, and a resume.
- Utilized animations and transitions for an engaging user experience.
- Ensured cross-browser and cross-device compatibility to reach a broader audience.

### **E-Commerce Platform (React)**

- Led a cross-functional team in the design and development of an e-commerce website using Figma and React to enhance user experience.
- Implemented state management with Redux, improving application performance and scalability.
- Collaborated with designers to create visually appealing and intuitive interfaces.

### **Age Calculator App (JavaScript)**

- Developed an app that accepts users' birthdays as input and displays their age (in years, months, and days)
- Used HTML, CSS, and JavaScript.

### **EDUCATION**

**BTech in Building Technology** | 2012 – 2017

Federal University of Technology, Akure, Nigeria

### **VOLUNTEERING**

**Monitoring and Evaluation Officer** | Nov 2022 – Jan 2023

John Snow Inc. • Lagos, Nigeria

Monitored and supervised a mobile team of 6 people to administer the COVID-19 vaccine to over 2000 residents of some communities in Shomolu Local Government Area, Lagos State, a project funded by USAID.

### **CERTIFICATIONS**

- CS50x Introduction to Computer Science – HarvardX (In View)
- Introduction to JavaScript – SoloLearn (June 2023)
- Async JavaScript (September 2022)
- Responsive Web Design – Sololearn (September 2022)
- Foundations of User Experience (UX) Design (August 2021)

### **INTERESTS & HOBBIES**

- Artificial intelligence
- Programming
- Music production
- Photography, Art & Nature
- Traveling
